FREEDMEN'S BUREAU PRESERVATION PROJECT

This National Archives microfilm publication is part of a multiyear project to microfilm the field office records of the Bureau of Refugees, Freedmen, and Abandoned Lands (Freedmen's Bureau). The project was made possible by the United States Congress through The Freedmen's Bureau Records Preservation Act of 2000 (Public Law 106-444). When completed, all of the field records for the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, Virginia, and for the District of Columbia will be available on microfilm. For microfilm availability and description, consult the current edition of the National Archives publication *Microfilm Resources for Research: A Comprehensive Catalog.* You can also view the National Archives microfilm locator on our web site at *www.archives.gov.*

INTRODUCTION

On the 90 rolls of this microfilm publication, M1903, are reproduced the previously unfilmed records of the Georgia staff offices and subordinate field offices of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1865–1872. These records consist of bound volumes and unbound records, containing materials that include letters and endorsements sent and received, monthly reports, registers of patients, orders and circulars issued and received, and other records relating to freedmen's complaints and contracts. These records are part of the Records of the Bureau of Refugees, Freedmen, and Abandoned Lands, Record Group (RG) 105.

This film series completes the reproduction of all Bureau records created in Georgia between 1865 and 1872. Many of these records were reproduced in 1969 in National Archives Microfilm Publications M798, *Records of the Assistant Commissioner for the State of Georgia, Bureau of Refugees, Freedmen, and Abandoned Lands, 1865–1869*, and M799, *Records of the Superintendent of Education for the State of Georgia, Bureau of Refugees, Freedmen, and Abandoned Lands, 1865–1870*.

HISTORY AND ORGANIZATION

The Bureau of Refugees, Freedmen, and Abandoned Lands, also known as the Freedmen's Bureau, was established in the War Department by an act of Congress on March 3, 1865 (13 Stat. 507). The life of the Bureau was extended twice by acts of July 16, 1866 (14 Stat. 173), and July 6, 1868 (15 Stat. 83). The Bureau was responsible for the supervision and management of all matters relating to refugees and freedmen, and of lands abandoned or seized during the Civil War. In May 1865, President Andrew Johnson appointed Maj. Gen. Oliver Otis Howard as Commissioner of the Bureau, and Howard served in that position until June 30, 1872, when activities of the Bureau were terminated in accordance with an act of June 10, 1872 (17 Stat. 366). While a major part of the Bureau's early activities involved the supervision of abandoned and confiscated property, its mission was to provide relief and help freedmen become self-sufficient. Bureau officials issued rations and clothing, operated hospitals and refugee camps, and supervised labor contracts. In addition, the Bureau managed apprenticeship disputes and complaints, assisted benevolent societies in the establishment of schools, helped freedmen in legalizing marriages entered into during slavery, and provided transportation to refugees and freedmen who were attempting to reunite with their families or relocate to other parts of the country. The Bureau also helped black soldiers, sailors, and their heirs collect bounty claims, pensions, and back pay.

The act of March 3, 1865, authorized the appointment of Assistant Commissioners to aid the Commissioner in supervising the work of the Bureau in the former Confederate states, the border states, and the District of Columbia. While the work performed by Assistant Commissioners in each state was similar, the organizational

structure of staff officers varied from state to state. At various times, the staff could consist of a superintendent of education, an assistant adjutant general, an assistant inspector general, a disbursing officer, a chief medical officer, a chief quartermaster, and a commissary of subsistence. Subordinate to these officers were the assistant superintendents, or subassistant commissioners as they later became known, who commanded the subdistricts.

The Assistant Commissioner corresponded extensively with both his superior in the Washington Bureau headquarters and his subordinate officers in the subdistricts. He prepared reports that he sent to the Commissioner concerning Bureau activities in areas under his jurisdiction, based upon reports submitted to him by the subassistant commissioners and other subordinate staff officers. He also received letters from freedmen, local white citizens, state officials, and other non-Bureau personnel. These letters varied in nature from complaints to applications for jobs in the Bureau. Because the assistant adjutant general handled much of the mail for the Assistant Commissioner's office, letters were often addressed to him instead of to the Assistant Commissioner.

In a circular issued by Commissioner Howard in July 1865, the Assistant Commissioners were instructed to designate one officer in each state to serve as "general Superintendents of Schools." These officials were to "take cognizance of all that is being done to educate refugees and freedmen, secure proper protection to schools and teachers, promote method and efficiency, correspond with the benevolent agencies which are supplying his field, and aid the Assistant Commissioner in making his required reports." In October 1865, a degree of centralized control was established over Bureau educational activities in the states when Rev. John W. Alvord was appointed Inspector of Finances and Schools. In January 1867, Alvord was divested of his financial responsibilities, and he was appointed General Superintendent of Education.

An act of Congress, approved July 25, 1868 (15 Stat. 193), ordered that the Commissioner of the Bureau "shall, on the first day of January next, cause the said bureau to be withdrawn from the several States within which said bureau has acted and its operation shall be discontinued." Consequently, in early 1869, with the exception of the superintendents of education and the claims agents, the Assistant Commissioners and their subordinate officers were withdrawn from the states.

For the next year and a half the Bureau continued to pursue its education work and to process claims. In the summer of 1870, the superintendents of education were withdrawn from the states, and the headquarters staff was greatly reduced. From that time until the Bureau was abolished by an act of Congress approved June 10, 1872 (17 Stat. 366), effective June 30, 1872, the Bureau's functions related almost exclusively to the disposition of claims. The Bureau's records and remaining functions were then transferred to the Freedmen's Branch in the office of the Adjutant General. The records of this branch are among the Bureau's files.

Constrained by limited resources, Southern opposition, and the politics of Reconstruction, the Bureau faced an enormous challenge in its efforts to assist the freedmen and refugees. Its relief efforts, without question, saved thousands of southerners from starvation. Its attempts to assist freedmen to become self-sufficient, to provide public education, administer justice, and, to a lesser degree, to provide land, all worked with varying degrees of success to lessen the difficulties during the transition from slavery to freedom. One of the Bureau's greatest legacies is the body of records it created and received during the course of its operations. These records are arguably some of the most important documents available for the study of the Federal Government's policies, efforts to reconstruct the South, and Southern social history and genealogy.

THE FREEDMEN'S BUREAU IN GEORGIA

Organization

Bvt. Maj. Gen. Rufus Saxton, who had directed the "Port Royal Experiment," was appointed Assistant Commissioner for South Carolina, Georgia, and Florida. Saxton established his headquarters at Beaufort, SC, in June 1865, and assigned Gen. Edward A. Wild the responsibility for Bureau affairs in part of Georgia. In September 1865, after Wild was relieved from duty, the office of Assistant Commissioner for Georgia was established, and Brig. Gen. Davis Tillson was appointed as Acting Assistant Commissioner, with exclusive control of all matters concerning the Bureau in Georgia. Tillson reported To General Saxton in South Carolina until December 1865, when he was ordered to report thereafter directly to Commissioner Howard at Washington. Generally, the records pertaining to Georgia and Florida that were created during this early period are included among those of the Assistant Commissioner of South Carolina.

The organization of the Bureau in Georgia was similar to that of the Bureau headquarters in Washington. The Assistant Commissioner's staff included an assistant adjutant general, an assistant inspector general, a chief quartermaster and disbursing officer, and a superintendent of education. Three officers served as Assistant Commissioner in Georgia between 1865 and 1869 and located the Bureau offices in four different cities during that period. General Tillson first established his headquarters at Augusta in September 1865 but moved it to Savannah in October 1866. Col. Caleb C. Sibley succeeded Tillson as Assistant Commissioner in January 1867, and 2 months later he moved the headquarters from Savannah to Macon. It remained there until July 1867, when the office was transferred to Atlanta. In October 1868, Maj. John R. Lewis replaced Sibley as Assistant Commissioner. Lewis served until the office was discontinued in May 1869. From January to May 1869, Major Lewis combined the duties of Assistant Commissioner, with those of superintendent of education. After the office of the Assistant Commissioner was discontinued, Lewis continued to serve as superintendent of education until May 1870.

The major subordinate field offices for the Bureau in Georgia, for example, included those with headquarters at Albany, Americus, Athens, Atlanta, Augusta, Columbus, Macon, and Savannah. Under the direct supervision of the subassistant commissioners were the civilian and military agents. Occasionally, the Bureau retained military officers in a civilian capacity after the termination of their military service. For a list of selected Georgia subordinate field office personnel and their dates of service, see the Appendix.

Activities

The major activities of the Freedmen's Bureau in Georgia generally resembled those conducted in other states. The Bureau issued rations and provided medical relief to both freedmen and white refugees, supervised labor contracts between planters and freedmen, administered justice, and worked with benevolent societies in the establishment of schools.

When General Davis Tillson took over as Assistant Commissioner for the Freedmen's Bureau in Georgia in September 1865, many of the major cities and towns in the state were troubled with overcrowding, decease, and poverty. In the cities of Macon, Atlanta, Augusta, and Savannah, freedmen and refugees were living in some of the most crowded and deplorable conditions, and many were in dire need of food and clothing, shelter, and medical attention.[1] Convinced, however, that Federal Government relief should be temporary and solely for the needy, General Tillson issued an order on October 3, 1865, prohibiting the distribution of rations to freedmen and refugees who were able-bodied but refused work. To discourage idleness and dependency, Tillson further ordered that only those persons who were able to provide for themselves would be allowed to remain in the towns and cities. Those who desired to stay, said Tillson, "must be compelled, if necessary, to go to the country and accept places of labor found by themselves, or for them, by officers or agents of the Bureau."[2]

Tillson's orders were strictly enforced. One month after his pronouncement, rations issued in Savannah had been reduced from 120,000 to 60,000 per month. For the month of June of 1866, the number of rations issued for the entire State of Georgia totaled less than 20,000. However, in spite of the Bureau's "self-help" policy, limited resources, and the belief that local governments should play a greater role in providing relief for the destitute, the Georgia Bureau issued some 847,669 rations from June 1865 to September 1866. Although the Bureau's actions prevented wholesale starvation and untold suffering, the agency's rations-relief efforts were far less extensive than what Bureau officials had done during the same period in Alabama, North Carolina, South Carolina, and Virginia. Tillson's successors, Assistant Commissioners Caleb C. Sibley (January 1867–October 1868) and John R. Lewis

(October 1868–May 1869) continued to follow the policy of providing limited rations relief. During their tenures, rations were issued only in emergencies and for the most part to hospitals and asylums.[3]

The Georgia Bureau's policy of temporary relief for the needy also guided its approach in providing medical care and assistance for the destitute. Like its ration program, the Bureau viewed its responsibility as one of providing temporary medical relief, primarily in cases of extreme emergencies. The Bureau believed that the ultimate responsibility for providing medical care to those in need lay with Georgia civil authorities. J. W. Lawton, who served as surgeon-in-chief under General Tillson, saw the use of dispensaries as the best means of administering medical relief and the most effective approach to encourage civil officials to take on some of the cost for operating them. Lawton and his successor at various times maintained dispensaries at Albany, Americus, Brunswick, Columbus, Darien, Newton, St. Catherine's Island, St. Marys, and Stone Mountain. The Bureau's medical department also opened hospitals with the idea of eventually turning them over to state and local authorities. The Bureau maintained hospitals at Atlanta, Augusta, Columbus, Macon, and Savannah. At the height of its medical operations (1866–67), however, the agency employed just 13 physicians. Nonetheless, with its limited and over burdened medical staff, the Bureau treated more than 5,000 freedmen for various aliments and vaccinated some 20,000 freedmen and refugees against smallpox from September 1, 1865, through September 20, 1866. By September 1867, the number of freedmen treated by Bureau nearly tripled. At the end of June 1868, close to 17,000 freed men, women, and children received treatment. Despite the Bureau's efforts to treat the weak, the sick, and infirm, the mortality rate among freedmen remained high. By late 1868, most of the Bureau's medical activities ceased, and care for the destitute was turned over to local authorities.[4]

In Georgia, as in other states under the Bureau's jurisdiction, the regulation of written labor contracts between planters and freedmen was of paramount concern. General Tillson's order of October 3, 1865 (Circular Number 2), which restricted the issuing of rations only to those in need, also instructed his subordinates to "make immediate and vigorous efforts" to secure work for unemployed freedmen "where fair compensation and kind treatment will be secured to them." Upon arrival at his

post in early September 1865, Tillson found the labor system in Georgia in disarray. Able-bodied freedmen were being paid from $2 to $7 per month. Many were of the notion that the Federal Government was planning to distribute land to them at Christmas or New Year's, and thus large numbers of freedmen were refusing to sign labor contracts. Planters, on the other hand, were convinced that the Bureau was the "champion" of the freedmen and totally insensitive to their concerns about freedmen and their unwillingness to labor, and were thus making little effort to prepare for the planting season.[5]

On December 22, 1865, in an effort to remove "false and mistaken impressions" held by the both planters and freedmen, Tillson issued wage guidelines that both parties were expected to follow. Under the new rules, freedmen had the right to choose their own employers, but those freedmen who refused to sign contracts after January 10, 1866, "where employers offer good wages and kind treatment," had to accept contracts that the Bureau made for them. In upper and middle Georgia, where the land was poor and unsuited for raising large quantities of corps, Tillson instructed his officers to secure contracts paying men $12–$13 per month, and $8–$10 dollars per month for women. Freedmen were to provide for their own clothing and medicines. In other parts of the state and along the coast and south-western Georgia, where "good crops" could be raised, men were to be paid $15 per month, including board and lodging, and women $10 per month. In areas where planters preferred to pay a share of the crop, the order required payment of "from one-third the gross to one half the net proceeds."[6]

Realizing that not all planters would comply with his new wage guidelines, Tillson instructed his subordinates to call on the military to enforce his orders whenever necessary. He was aware in spite of his orders, many of the contracts being signed, even some approved by his own agents, were substandard and not in compliance with his wage schedule. He made clear to both his agents and the planters that such contracts would not be recognized. To emphasize the importance of and his commitment to fair contracts and compensation for freedmen, Tillson offered transportation to freedmen to such areas as southwest Georgia and the Mississippi Valley where wages were higher. In a November 1866 report to Commissioner Howard, Tillson indicated that he had issued 381orders for transportation for some 2,947 men and 1,013 children.[7]

Safeguarding rights and securing justice for freedmen was a major area of concern for the Freedmen's Bureau. Following the Civil War, several Southern states enacted a series of laws commonly known as "black codes," which restricted the rights and legal status of freedmen. Freedmen were often given harsh sentences for petty crimes and in some instances were unable to get their cases heard in state courts. In a circular issued by Commissioner Howard on May 30, 1865 (Circular Number 5), Assistant Commissioners were directed to "adjudicate, either themselves or through officers of their appointment, all difficulties arising between negroes themselves, or between negroes and whites or Indians." In response to Howard's circular, General Tillson issued an order on November 15, 1865 (Circular Number 4), instructing his officers to hear and make determinations in cases involving freedmen in which the disputed sum did not exceed $50, or the punishment did not exceed $50 or 30 days' imprisonment. Agents were also told that they could "try offences committed by or against freedmen, provided the sentence imposed does not exceed one hundred and fifty dollars or imprisonment for at hard labor for sixty days." Tillson further ordered that "It is preferred that all cases of any importance . . . whenever under the laws there of [the State of Georgia], or by agreement of the parties . . . [where] the testimony of Freedmen can be admitted . . . the Agent will turn them over to the civil authorities for trial." To carry out Tillson's orders, agents were to establish three-member tribunals (known as freedmen's courts) consisting of a Bureau official and two citizens, one chosen by each party involved in the case.[8]

However, when the Georgia State Legislature passed an act conferring civil rights on "persons of color," approved March 17, 1866, Tillson advised his officers on April 6 (Circular Number 4) that they were no longer required to comply with Commissioner Howard's orders of May 30, 1865. While Tillson told his agents that they were to continue to follow instructions issued by him on November 6, 1865 (Circular Number 4), "all cases exceeding their jurisdiction, unless otherwise specially directed by the Department Commander, [were to] be turned over to the civil authorities of the State for adjudication." Despite the Bureau's efforts to secure justice and civil rights for freedmen in Georgia, blacks continued to complain to the agency about some of the "most fiendish and diabolical outrages" suffered by them at the hands of gangs known as "Regulators," "Jayhawkers," and the "Black-horse cavalry." Perpetrators of crimes against freedmen were often not apprehended or prosecuted by civil authorities. At various times, because of increased hostilities toward freedmen and the failure of civil authorities to take action in their cases, Bureau officials in Georgia were compelled to reassert their authority.[9]

Bureau educational activity began in Georgia in October 1865, when G. L. Eberhart was appointed as superintendent of schools (later education). In August 1867, Edward A. Ware succeeded Eberhart. In January 1869, Assistant Commissioner Maj. John R. Lewis assumed the duties of superintendent of education. Lewis served

in both capacities until May 1869, when the office of Assistant Commissioner was discontinued, and remained as superintendent education until May 1870. The records of the two offices were not combined. Ware, who had been acting as assistant superintendent, remained in Georgia as acting superintendent until August 1870, when all Bureau officers except the claims agents were withdrawn from the state.

Congress's failure to provide an appropriation for the Freedmen's Bureau during it first year of operation, impacted significantly on the agency's ability to provide adequate assistance for freedmen education. With limited financial resources, the Bureau provided help when it could, and worked vigorously to encourage freedmen and Northern benevolent societies to taken on the primary responsibility for providing support for black schools. G. L. Eberhart and his successors were of the opinion that "colored people who are unwilling to help educate their children do not deserve to have schools." To encourage freedmen to participate in this self-support effort, Eberhart urged them to establish educational associations. With assistance from local Bureau agents, educational associations were established in the subdistricts of Thomasville, Bainbridge, Albany, Georgetown, Cuthbert, and Americus. In early 1866, the "pay your own way" policy led to the founding of the Georgia Educational Association (initially organized as the Georgia Equal Rights Association). The Educational Association worked closely with the Bureau and Northern aid societies and became the model "to encourage the people [freedmen] to organized effort in supporting their own schools & managing their own affairs." By the end of 1866, freedmen owned 57 schoolhouses and provided support for 96 of the 127 schools in the state. By the spring of 1867, freedmen contributions sustained some 104 schools and teachers and more than 3,000 students. During the same period, the Bureau maintained some 44 schools and 50 teachers and close to 3,100 pupils. Northern aid societies provided support for 84 schools, 78 teachers, and over 7,000 students. Freedmen also defrayed the expenses for 45 schools under the control of the Bureau and the aid societies.[10]

With the passage of the Army Appropriations Act on July 13, 1866 (14 Stat. 90), the Bureau received its first appropriation and was able to provide greater assistance in its effort to support freedmen education. In addition to providing some $21,000 for state superintendents' salaries, the Act made available $500,000 more for the rent and repair of school buildings. In the same month, Congress overrode President Andrew Johnson's veto and extended the life of the Bureau for 2 years. In this new legislation (14 Stat. 173), the Bureau was allowed to "seize, hold, use, lease, or sell" Confederate property for the purpose of educating freedmen. The act also required the Bureau to work closely with benevolent groups and to lease buildings to those associations that supplied teachers. By early July 1869, the Bureau had expended nearly $105,000 for the construction and repair of school buildings that provided accommodations for 4,690 students. The Bureau spent an additional $10,471 for the

repair of buildings that provided part-time space for more than 3,500 pupils. By the time the Bureau withdrew from Georgia in 1870, the agency had contributed funds for the building of some 50 schools in the state.[11]

RECORDS DESCRIPTION

These records consist of volumes and unbound records. The volumes reproduced in this microfilm publication were originally arranged by type of record and thereunder by volume number. No numbers were assigned to series consisting of single volumes. Years later, all volumes were arbitrarily assigned numbers by the Adjutant General's Office (AGO) of the War Department after the records came into its custody. In this microfilm publication, AGO numbers are shown in parentheses to aid in identifying the volumes. The National Archives assigned the volume numbers that are not in parentheses. In some volumes, particularly in indexes and alphabetical headings of registers, there are blank numbered pages that have not been filmed.

The volumes consist of letters and endorsements sent and received, press copies of letters sent, registers of letters received, letters and orders received, special orders and circulars issued, registers of complaints, and monthly reports forwarded to the Assistant Commissioner. The unbound documents consist of letters and orders received, unregistered letters and narrative reports received, special orders and circulars issued, general orders and circulars received, monthly reports, and records relating to complaints, labor contracts, patients, and court papers.

LIST OF BOOK RECORDS OF OFFICERS

The single-volume list of book records of officers in Georgia (no date) is arranged by office, with records of the Assistant Commissioner first, followed alphabetically by locations of the subdistrict offices. Included in the list of book records are the type of record in each book or volume, the dates of the volume, and the volume number. Throughout this introductory material and in the Table of Contents, the AGO volume number appears in parentheses in the series descriptions of the records.

Carrollton Ga Jan 9th 1868

Respectfully returned to Fred Moseley Esq. S.A. Com Atlanta. with the information that this communication was not received, until I had returned to the employer of the person referred to within; that on investigating this case, it was shown that the parties were qualified before a Justice of the Peace, to arbitrate by an arbitration of the case, this arbitration shows that the men did not entrust the land to a co-partnership, that he only made a bale over two bales of cotton and 75 Bushels of corn half of which was his portion. He had been furnished with provision by the employer for his family and his part of the crop did not pay his indebtedness. As the case had been legally arbitrated, I could not recognize it unless the parties establish the fact, that a advantage had been taken of him by the arbitrators.

I have referred the matter to a further hearing when I again go to Carroll. and submit this paper for further instructions

A colored woman, Viance Wright applied to me for assistance in having her boy Seaborn Wright restored to her. The boy is 14 years of age and was given two years ago to a colored man by the name of Webb at Ringgold Ga. under condition to learn him the trade of blacksmith and farmer for 5 years and pay the mother at the expiration of the time $100.00. She has now information which I have seen, that the boy is used and by Mr Webb to work in the fields and that Mr Webb appropriates the wages to his own use and benefit. No contract was ever made out, only a written permission to have the boy under the above conditions was given. The boy is at present at the house of a Mr. Anderson at Ringgold Ga. & respectfully request that the boy be returned to his mother

I have the honor to make the following statement in the matter of Titus Harris Freedman vs Jarrett George Some time about the 1st of Febry 1867 Jarrett George hired a one Horse waggon of the value of Fifty Dollars from Titus with the express understanding that George was only to keep the waggon for two days and to pay Harris One Dollar and fifty cents a day for the use of it during that time. My Dear Sir. In answer to certain charge
to made against the undersigned, at
head quarters, by One Carrie Mason (Colrd)
in regard to the hire of Daughter Lula, I
permit me to make the following Statement
of facts. In the first place I did not pur
mently hire the Girl Lula from her Mother. I
admit that I made an agreement in Atlanta
With Carrie Mason for her daughter to go with
Me to Grantville. That Mr J M Hill was getting
u/c Emegrants (for the white and black for Texas)
and I thought She could get 5 or 6 dollars
per month. to go with him to Texas and that
I was going my Self and wanted her Daughter
to go with us and nurse my little babe. This
She consented to. And the Girl Lula
went with me to Grantville, The Girl Lula there
engaged her Self to Mr J M Hill in writing
Stipulating to go with him to Texas at the rate
of Six dollars per Month. I told Mr Hill that
Lula was competent to Contract for herself
That her Mother told me She was over
fifteen Years old. Lula went with us to
Texas nursed my babe on the way. Mr
Hill paid her 4 Dollars after we got to our
destination. Mr Hill let me have the Girl at
the Same price that he gave me for per month
as I had no nurse. Lula remaining with
me until the first of July last. My wife
and Lula had a talking and my wife slapped
her with her open hand. Lula Deserted her

To the bureau. The bureau refused to act and turned the matter over to the civil Authority. She told me. and my wife was fined fifteen dollars and fifty cents which I paid, Lula then left me without my consent. I paid her every farthing I owed her for her Services some time before I left as making my arrangements to come back to ga having no means to come with me. I endeavored to get her to come back with me, She refused to do so saying she had made an engagement for the next year. The undersigned denies making any permanent contract with Mrs Mason for the hire of her Daughter only as stated above. also denies agreeing to give her any sum but that night Mr Hill would give $5 or $6 dollars in Gold per month. I may have said to her If I comm back to Georgia If she wanted she might come back with me, (at that time I had but little Solid I owned Comm back to live, as I have stated above Lula had an opportunity of Coming to ga with me and She would Not. The undersigned further denies debauching the Girl Lula, On the Contrary She deserted him all of which is respectfully submitted

Sir:

After a careful investigation of the case of Ann (nee Ute) vs. Jane Ann Dupree, I have the honor to state that in my opinion there is no fault in relation to the statements. The facts as I learn them are these. Mrs Dupree formerly owned the boy, when freedom was declared she informed him that he could go. he wanted to remain but she insisted to give him Ann knew where he was but made no demand for him until about the 6th July or, when she went to Mrs D and got him and expressed herself as fully satisfied and thanked Mrs D for the care she had taken of him. but made no demand for wages, this was the only time she had been on the place. As to the girl having no clothing, I learn that all the children were clothed and plenty of them. Mrs Dupree Ute also informed me to the same. As to the girl Mary she never lived with Mrs D nor did she ever know Ann had a daughter by that name; Mary was living with Mr Dupree from whom Ann got her.

This case was investigated by Mr Aycock former Agent last August but I suppose no proper report was made at the time.

Genl Rufus Saxton.

General:

I have the honor to ask your assistance in the collection of two notes given to Washington Lucky and Wm Lowe by B. F. Parks, for their services on his farm during the year 1867. One is for $117.81 the other for $28.00.

Parks has not any property which can easily and knowingly be taken, and any means to help the freedmen is at an end, unless you are able to deduct the amount from their wages, if he is employed by you at the new Barracks is able and ought to pay.

I enclose the notes, and beg you to take care of and return them to me if you cannot help me or the freedmen.

With true personal regards I remain

Respectfully Yours

It has been reported
at this office that Little John person living in Upson
Co. Ga. withholds from the care of their mother Cornithia
Jackson, freedchildren Minnie, Amanda, and Bill.
The parents of these children were driven from Mr. Jackson's
place about a year ago, and not permitted to take the
children. They desire to have their children with them,
but fear to go for them. The father is a carpenter, and
well able to provide for his children.
I have the honor to request that Cornithia Jackson be
assisted in recovering her children.

General:-

I have the honor to draw your attention to communications from this Office dated Aug. 23d and Oct. 16th 1867, in regard to a claim of "Garrison", freedman vs. Gen. Jones, of Jurisdiction, Co. Ga. for $42.50/100, due for services rendered. Mr. Jones gave a note for the amount, and paid $20.00 upon my application above referred to,- promising to pay the balance soon after. Nothing has been heard of the matter since. I respectfully request that the Agent of Jurisdiction Co. be instructed to collect the balance on the note; and to be authorized to seize sufficient property from Mr. Jones, in case he should not comply promptly with his demands. I am inclined to think that Mr. Jones will not pay unless forced to.

That he is the father of two children, viz. Wm. Willis, 10 yrs. old, and Ca. Willis, 12 yrs. old. Their grandfather Aaron Stafford lives in Pike Co. near Barnesville Ga. Immediately after the "Surrender" the grandfather applied to Jasper Willis, living near the same place, and their former owner, for the charge of the boys, as the parents were dead; and was refused with threats of shooting &c. That as soon as he got him off the place, Jasper Willis went to a Bureau agent James Green and had them bound to him without the consent of their Grandfather. Aaron Stafford through Registrar now begs that the boys be restored to him.

General;

I respectfully report that Wm. McWhorter (his former owner) entered into a contract with Wm. Hewell Manning for 300 A. of land for the balance, Wm. McWhorter (his former owner) said security. Last Dec. when he was not able to pay the other 200 A. Wm. McWhorter proposed to Wm to sell the home again, & return it to its former owner, and offered to do this for him and see that he would get his money back. Whitfield authorized the sale, and Wm. McWhorter sold the house and lot with improvements, for 300 A. paid the 200 A due Wm. Manning, but failed to do what he said the other 100 A, or render any account to him. He has called several times in the last six (6) months, without receiving an answer. He also hired his daughter to McWhorter from the time she was free till the Christmas (1867) following, refusing to pay for her services.

I respectfully request that this complaint be referred for investigation.

Very Respectfully

× × × × ×

May 2d.– Returned by Maj. Knox with information that he does not think Whitfield entitled to anything– that he paid his Note for balance due on house & lot and failed to pay it– Thinks Mr McWhorter's proposition a fair one, to wit: to pay Whitfield the difference between what he (Whitfield) owes and the $100 paid on house and lot– Is convinced that the claim for service of his daughter is unjust, it having been paid.

Respy returned to Lt. Maj. J. J. Knox A. A. C., Athens Ga., Where is directed to accept the proposition of Mr. McWhorter, and settle this affair as soon as practicable.

Comr. Dr Ware came to
this office on Tuesday 10th, the
day after I wrote you. He was
not in a condition to attend
to business, and stated that
he was not able to respond on
the day appointed by me, & that
he he came on that day to
show me, that it was not his
intention to avoid a settlement.
You will recollect when
you was at my office, I informed
you that I had been down to
the Doctors, and had given him
permission to sell the Cotton, on
his promise to settle the claim
as soon as sold. The Cotton
has been sold, but he has
been confined to the house
ever since. He has promised
me that as soon as he can attend
to business, he will meet the par-
ties at this office and make a
settlement.

I will add that he should
not have come out on the day
he visited the office. I have
every reason to believe now that
he will settle with the Freedmen
as soon as he is able to attend
to it. Please return these papers
for final action.

Major

In compliance with yours of the 7th inst. I have the honor to report as follows. 1st.

This office is not in possession of any serious difficulties between the whites and colored, except one case in Carroll county. This is for the discharge of a family man contract for a portion of the crop. The same parties complain that the employer committed an assault & battery. No action has as yet been had in this case. This is owing to the unsettled state of the courts growing the action of the legislature to reorganize the courts.

Although there are no complaints made to this office, that would warrant official action, there are numerable complaints of threats to discharge the freedmen who are identified with the Republican party. To such as come to me, I advise to take no notice of the

* Fights by Colored Militia, Violation, Action of Civil Authorities

NARA 432

the Sheriff, but to attend to their work and wait the action of the employer. And that in the event of being discharged, and a settlement refused them, to report the facts. These complaints are not groundless, or without a foundation, for I am informed by good authority that a few of the leading men has gotten up a paper and are circulating the same pledging one and another not to retain or hire any one whom they cannot dictate to, or control.

Should this plan be carried into effect, the result must cause a great deal of inconvenience to the persons who are working for a part of the crop. The only remedy that I can see, is in the selection of honorable men to preside over the Courts.

Again, if the people follow the advice of the local news papers, there must be a collision of the two classes.

The removal of the Military, and the withdrawal of its authority, (the only check on their actions) has emboldened them to proceed to violence, although no serious difficulties have as yet taken place, only such as I have been able to settle by compromise.

NARA 433

There has been a few complaints on the part of the employers made to this office for none compliance of the contracts by the freedmen. I have in such cases investigated the facts, and on being satisfied that the complaint is well founded. I have discharged the freedmen settling with them for the time employed, and when working for a part of the crop. demanded fair wages for him, and reporting my action to you in my monthly report.

This report will apply more particularly to Caswell, the number of freedmen in the other counties being few than in the former, and I am of the opinion that there is a better feeling existing towards the freedmen outside of Caswell.

As far as the courts are concerned, we have had no courts since March, except a few Justices courts in the county districts, most of them for petty larceny; one or two for assault and battery, and of those at which I have been present the freedmen have been fairly dealt with. I must here remark, that for the want of a court in the Kinston district, one or two cases that should have been taken cognizance of, have been postponed,

NARA 434

me may now be adjudicated.

2nd

To this part of your communication, I have endeavored to be as particular as I could be and from the last information submit the following

The two schools in Newman are under good teachers, the one in charge of Mr Standing employed by the Methodist Aid Society is taught in the church used by the colored people, and built by them, aided by the Bureau to the extent of $300. This school pays the teacher 25 cents per scholar per month over that received from its patrons, the society named above, and will continue so to do. This school averages about two scholars per month and needs no aid from the Bureau, unless it is to furnish the necessary books and maps, that the parents cannot

The school of which Mr Bohannon is the teacher is supported wholly by the parents. The building used is on the premises rented by the teacher. This school number about 74 scholars and is in a good condition, and labors under the same disadvantage viz the inability to procure the books in higher branches. And the same will apply to all the schools in this report

NARA 435

The school in charge of Ronan Baltis Colored in the 2" District is taught in a building put up of logs for the purpose, and is furnished per of mat- and can be had on fuel in on the same lines. This school is supported by persons, and the teacher although a man unlike the average, and not able to make up to that time, is competent to teach those that are under his charge in the first branches of an education. Number of scholars average 20

The school taught by Mr Scott in the 3" District is in a building furnished by Dr Coleman Cathcart for the benefit of the children of his plantation employees.

This teacher is not competent to conduct a school & I have thought to omit this school in my reports hereafter. The school is supported by the persons on the Doctors plantation. There is not sufficient encouragement to establish a school in this vicinity, and perhaps this can will remain for the present until the State provides for the education of this class. Number of scholars 23.

There is an effort to establish schools in the 6th & 7th Districts as the Colored Constabulary men on the beats of Colored teachers, who are competent to teach; as those who will attend will have to begin with their alphabet. Log buildings are being put up for the purpose

NARA 436

and will answer the purpose until arrangements are made by legislation, but help from the Bureau to defray the expenses of the teacher would be very acceptable, as the parents of the children can hardly afford to pay for the tuition at present. No of Scholars in each about 60

The freedmen are deserving of great credit for their efforts to educate their children

Night Schools will be needed in the Newman District as soon as the evenings become longer, but will need help from the Bureau to sustain them.

There are but two places in this County in which Schools could be established by the Bureau to any advantage Viz. In the district known as the Red-Bone. It would be necessary to build the house (a log one would answer) and furnish a teacher in this district there would probably be about 75 Scholars who would pay one fourth of the expense of a teacher. In this district I have reported a house as being suitable, but I am now informed the trustees of the building (the Church) are opposed to its being used as a School house.

Rebels in Georgia

NARA 437

At Franklin and its vicinity a school could be established, but would have to depend entirely on aid from without for both teacher & a suitable building number of scholars about 60

It would not be practicable for the Bureau to establish schools in these Counties from the fact that the colored population is so sparse, that in no one district or place a sufficient number of scholars could be brought together to make a school. And for the Bureau to establish a school to educate the two classes promiscuously would result in a failure.

The same result applies to other portions of my district. I refer to the report of the visitor on this subject.

Counties continued

In my report for County I omitted to report the School at Grantville. This School was commenced or discontinued in June. It was under the patronage of the Methodist Aid Society who furnished the teacher. There are about 100 scholars whole amount paid by the parents about that paid by the society averaged about $10 per month for the support of the

NARA 438

teacher. This is almost all that can be expected from this school. The building occupied is the colored people church. and this school will probably commence in october

Very Respectfully

Since writing the above, I have received information, that a school could be established in the District known as the Panther Creek, with about 80 scholars. Provided a teacher & house could be furnished. Also one in the first District about 40 scholars. no house.

These schools are in Cowetā, and could pay about one fourth of the tuition.

Sir

I have the honor to respectfully forwarde to you report in compliance with Circular No 4 Dated Atlanta Ga Aug. 5th 1868,

The feeling towards Colored people is very bad, throughout my Dist the White people seems to want to contrale the former withstant any respect for the rights and privilejes of the freedpeople daily the colored people air making complaints to me of the bad treatment they receive at the hands of their Employers. getting up little Quarles with them so as to get there labor for nothing, it is impossable for the freedmen to sue a man before the Civil Courts for his wages. as the chance is so great that the ignorant freedpeople do not Know how to manage there cases according to the Strict letter of the Laws of this State requir. the advantage is very easey taken of them. which seems to be the whole aime of the white People.

The freedpeople air very Quiet and peaceable but I dont think they will remain so long. unless there is something done to relieve them.

Report:

1.st No contracts have been entered into before me during the mo. of August 1868. Fully appreciating the importance of the suggestions contained in the excellently conceived and well written circulars, it will be my pleasure and duty alike to conform to the same. My professional attention shall be given to the supervision and formation of contracts — to the end that, if the Freedmen do their duty the Civil Courts must decide upon the merits of the respective cases and not upon technical formalities.

NARA 465

2nd I cannot speak as favorably of the public sentiment i.e. the feeling of the Whites toward the Blacks, and vice versa, as I would wish.

Some altercations can be made in consequence of the unsettled condition of political feeling. A few instances of aggravated Assaults and Batteries have occured upon freedmen.

In my judgment, the Courts will have fine and frequent opportunities, on civil and Criminal side of the same, to prove to the Public and the world that passion and prejudice shall not, in Georgia, triumph over the law. I will not prejudge. Heathen mythology beautifully represented the Goddess of Justice as blind and as holding the scales in perfect equilibrio. May Georgia's civil officers, at least do as much.

General:

I have the honor to respectfully request that inquiries be made in regard to a colored girl, by the name of Lulu Mason, about 16 years of age, and now living at Anderson, Grimes County, Texas.

It has been reported at this office that in December 1866 she was hired by a Mr. D. T. Johnson now to go to Texas and live with his family during the year 1867 and to send her back free of expence at the expiration of the term. Caroline, now the mother of the girl, who reported the case, states that Mr. Johnson returned but without her daughter, that she is very anxious to come back but could not on account of the heavy expenses. Upon investigation I find that Mr. Johnson took the girl from here to Grandville, Heard Cty. Ga. where she hired herself to a Mr. J. M. Fill, who was then hiring hands to go with him to Texas. Mr. Fill agreed to pay her fare and afterwards consented to let her stay with Mr. Johnson. That, when he (Johnson) left to return home,

NARA 478

he offered to take her back but that she refused to go. This statement is supported by the affidavit of Mr. Johnson. Mr. J. M. Hill is said to live ~~at~~ in Grimes Cty - Texas, now. No contract with him exists on file in this State.

I would respectfully ask to be informed whether there is a contract between him and Lulu Mason on file in the Bureau R. F. & A. L. of Texas, and if so whether by virtue of this contract Mr. Hill can be made to pay the traveling expenses of Lulu Mason, provided she is willing to go and wishes to return to her mother.

Mr Neuman suspects that these girls do not
want to go to their mother, that
she has tried to induce them to
come before, but they re-
fused to do so. I also sent
for the Girls and they came to see
me they are, I should judge,
as old as Mr Neumon states.
They were well dressed, and
expressed a strong affection
for Mr Neumon and stated
that they would not leave him, that
they were treated as a part of his

Sir:

In the latter part of April last Danl Smith (Colrd), working a plantation near Lawrenceville Ga, was driven from his place by a party of men, styling themselves "Ku Klux" whereby he lost the crop he had on. The case was investigated by orders from Hd Qrs 3rd Mil Dist and it was finally decided to take no further action in the matter.

Some of the parties concerned have since promised to pay said Smith damages, if reasonably assessed, & the Asst Comr desires that you endeavor to induce a settlement if possible.

Sir.

I have received your letter of the 8th Inst. and in reply beg leave to make the following suggestion for a final settlement in the Dand. Smith case. Let me chose a man, the K. Klux (as they call themselves,) a man, these two chose a third man and let the case be arbitrated, and the decision of these Arbitrators shall be a final settlement of the case,

This case has been on hand for nearly four months, I have made every effort in my power to effect a compromise, but have failed in every instance, It is a very plain case, Walter Malby confessed to me that he was one of the clan & L. W. Strickland another one, I do not recollect who was present,

At the time that Brig Generals letter was recd I immediately wrote to Bvt Hill & recd an answer stating that Lula had left his employ a short time after coming to Texas, that he knew nothing of her whereabouts; I went to Anderson in the latter part of May and made enquiry throughout that portion of the Co. without success. On receipt of letter of inquiry from Hd Qrs I again visited Grimes Co. & asked the leading freedmen to make special enquiry & if successful to inform me at once, As no information was derived from these sources & receiving a second letter from Hd Qrs Dist Bvt Hill to get this statement in full he informed me that he saw Lula on the Cars a few days previous, that she told him that she was now living at Navasota which place I immediately visited and found that the statement was materially the same as Bvt Hill, I then returned the papers without delay

Edwards, Not left Eddis' whose trip Minnie was sent to Georgia some years ago. The said Jer Edwards is now an old man, and from the most reliable evidence I could obtain is in a very distitute condition, and not able to waive for himself, and certainly could not provide for a trip. (he has said a nine since Minnie left - but she is dead) Admission Edwards the son of Jer is West-ern with Jer Edwards is not a citizen of this County, nor has he been since Feb 21st 1865. I am credibly informed that he lives in Norfolk.

Respectfully returned to Col C. C. Sibley with the information that Mr. Duncan does not own any property here and that Johnson (Col[d]) lives in Lee County, and has no property at all. As Mr. Durham furnished the land and means to cultivate the Crop to Duncan and Johnson and the Crop made on said land was not sufficient to cover his expenses. He seized every thing for himself - Considering that the freedman have the first lien on the Crop which they raise it is my opinion that Mr. Durham is responsible for their wages to the amount of at least the value of the Crop made by them - I have seen Mr. Durham and he informed me that it was impossible for him to obtain his accounts with the freedman without going himself to get them, as they are all on his plantation in Lee County - He expressed himself willing to appear upon notification before any Officer or Agent of the Bureau at Albany or anywhere else with his accounts and submit them for a settlement - As it would be more convenient for Mr. Durham and better to make the settlements in presence of the freedman - I would respectfully recommend that the case be referred back to the Agt at Albany - Moreover since Mr. Durham has no property in Atlanta to my knowledge but land in Lee County

Respectfully forwarded to Col. C. Sibley A. C. While at Jonesboro Last Saturday Mr. Waldrop mentioned this case to me. He stated that he had forwarded a full report of the affair to Lieut Leonard then A. A. Comr Atlanta Ga. on the 14th of April last and requested further instructions but had not heard of same since. He stated further that the Freedman was ordered to pay the cost of the Court. that he (Waldrop) interfered and stopped further proceedings until further instructions from higher authority could be obtained. I find said reports registered in this office on April 15th as filed but cannot find it and so I requested Mr Waldrop to report it again which is here by respectfully submitted

Circular No. 1.

The attention of Agents of the Bureau R. F. and A. L. of this Sub District is directed to the following suggestions of the Sub Asst. Comr. in regard to the manner of approving contracts this year.

I. The contract should be as plain and concise as possible, setting forth the conditions of the agreement, the duties of Employer and employee, and should be signed by both parties before witness.

II. Except general rules, no extra rules or regulations should be introduced, and no fines for violation of rules should be admitted.

III. Deductions for lost time should be pro rata, or, when the Contract is for part of the crop, an average estimate of the value of the time lost should be allowed, not exceeding $0.50 per day. Greater deductions for lost time, when the loss exceeds the pro rata value or $0.50 per day, should be left in future for the decision of the Agent of the Bureau, or to a mutual agreement of the parties interested, and not to the employer alone.

IV. It should be stipulated that the wages or part of the crop, are to be paid and given, either monthly, quarterly or semi-annually; or, at the expiration of the time.

V. No rule for the laborer to forfeit his share of the crop, or wages due, for leaving the Plantation or his work without the permission of the employer or his Agent, should be approved.

VI. Agents should encourage the people to make written Contracts, and in the presence or before an Agent of the Bureau; and they should give them all the assistance possible in making such written Contracts.

VII. With due regard to the above suggestions, Agents will approve any Contract that gives the freedman a reasonable compensation for his services, without being governed by any fixed rates; they will

of course, guard the advantage of the laborer, and advise him to make the best contract possible under existing circumstances, and according to market value.

VIIII Agents will bear in mind, that of all Contracts approved by them, one copy must be forwarded for file in this office, or for the decision of the Asst. Commissioner.

NARA 653

Report of Cases tried during mo. of December 1867. by Jno M Nolan Agent &c, Wm. Georgia.

Names of Parties	Nature of Case.	Summary of Facts in Evidence	Decision.
1 Monroe Davenport Col.d vs G. B. Reagan of Newton Co	Motion for settlement for services for 1865 & 1866	Monroe, Pltff., just peers above idiocy. In September 1865, Monroe Commenced work with Reagan – Contin.d till Christmas & rec.d pay in full. On Dec.r 28. 1865 the parties, before Mag.te Duckie, Ugly Dist.r R.F.&c, [illegible] Newton Co. Ga., entered Contract for year 1866 – Monroe to receive $36.00 — On January 10.th 1866, Monroe hunted Reagan and reappeared suddenly on 13.th August 1866 and then remained till Christmas following, occasionally leaving three or four days at a time. Monroe asked that he might stay in 1867 to make up time lost in year 1866. Reagan consented. Monroe remained until near July '67 and then suddenly leaving was not heard from again until notice was rec.d to appear at office of Agent for Henry & Newton. Monroe was way treated humanely and furnished with Wat. Clothing & Shoes &c to value of $32.25 — Evidence of Reagan, sustained and corroborated by three disinterested and respectable witnesses	Ordered that Defd. Reagan pay to Davenport the sum of $32.25 (Money paid and rec.d by Davenport)
2 Benj. Usher, Col.d vs And.w J. Ammons of Henry Co	Motion for settlement for Services in 1867.	Ben Usher, Pltff. Contracted verbally to live with Defd. for year 1867 for sum of $100. (This is fair compensation for a minor) No disturbance until about 25.th Nov.r, when Ben struck an old white man on the premises, and Ben's boss of Ammons, claims the favor. Soon after, Ben applies at this office for settlement – Ammons was ordered to appear. – He did so and insisted that Pltff had violated contract in leaving. Ammons was told by Agent that Agent would force Ben to return upon Condition that Ammons would protect him – that Agent would hold Ammons responsible for good treatment and probation. Ammons would not Consent to Ben's return to Ben. Both parties agreed that about $34 had been paid to Ben.	Ordered that Ammons pay Ben the sum of fifty (50) dollars Cash and the further sum of $4.40 if Ben should be arrested by warrant for striking the old White man on the premises of Ammons. Ben being partially justifiable in opinion of Agent. (Money paid and in the Hands of Agent. Subject to order of Pltff.)

Report of suits or cases tried and adjudicated by Geo. M Nolan Agent Bureau R.F and A.L in the Counties of Henry and Newton during the month of March 1868.

No	Date	Plaintiff	Defendant	Nature of Complaint	Decision	Remarks.
1	Mch 17	James Bloss Col^{d}	Marion Bloss	Claim of Cow	In favor of Deft	Plff right of Deft to the Cow can't be questioned. It was a little Calf in Novr 1864 and belong^{g} to Deft — was taken by Union Soldiers & given to Plff on the premises of Deft — and Plff belonged to Deft as a Slave. Deft raised the Calf.
2	"	Kit Ramsey, col^{d}	John Ponds	Demand for wages, (Quantum Meruit) for Ditching a Bottom	For Defendant	Plff rented a piece of land of Deft for 1867 for sum of Eight dollars. Plff was to ditch a branch bottom and put it in good order for what it would produce in year 1867. It made about 10 Bushels Corn. By distress warrant for rent, of Eight dollar land upon which Plff lived has firewood &c, Deft had the Corn sold for the rent. Plff now claims wages for the ditching. I think under Contract the Claim is unjust Persons four witnesses affirm that the ditching did not reclaim the Land and was of no value.
3	" 28th	Handy Ware, Senr	H. W. Ames	Demand for one and one half Mos wages Quantum Meruit	For Plff.	Judgment for $12.00 the Deft. insisted nothing was justly due. Money paid to Plff.

I would say there are at this time at the least about Two hundred and fifty (250) Men women and children that Cannot live and make any crop at all, without assistance.

To the next enquiry. What supplies are now being distributed in this County.

There is no supplies being distributed in this County at present.

NARA 728

Bureau of Refugees, Freedmen and Abandoned Lands,

OFFICE AGENT FOR HENRY COUNTY,

McDonough, Ga., March 20. 1867

Sir:

I have the honor to acknowledge yours of the 13th Inst. which says: "You will immediately make diligent inquiry of all persons of whom any information may be obtained and make answer to the following questions.

II. What is the extent of the present destitution for want of the necessaries of life in your County? Give estimate number absolutely dependent— Whites & Blacks

III. What supplies are now being distributed in your County? From what source received? Through what agency distributed? And to what amount? Give any information as to the best manner of distributing supplies received from Charitable societies."

In answer to your first Interrogatory, or, to the first clause of the same; I respectfully state this: So far as my information or observation extends, I do not think, in proportion to the

NARA 729

population that more general destitution exists in any County in Georgia. And had your question ended here, I would of necessity, been forced to return you a very large number of persons.

I suppose there is in this County, a Population of near ten thousand. It is one of the Thirty seven largest Counties in the State.

Some two months ago, preparatory to making an appeal for help to the generous people of Kentucky and other States; a citizens meeting was held at the Court House of this Co. and a Committee appointed to inquire into and report the number of destitute Whites in the County. I find upon investigation that that Committee reported Eight hundred (800.)

I find that the Clerk of the Superior Court of the County, has, in pursuance of orders or in response to enquiry from the Executive Department of the State, reported over Eighty (80) Widows and over Four hundred (400) Children — Most of whom are in a destitute condition. I am inclined to think from the investigation I have made and information obtained, that there are scores of heads of families who have not, severals,

NARA 730

more of the necessaries of life than I can easily carry upon my back — and who have not five dollars in the world and nothing of which they can well dispose to realize any money.

Such is the condition of the Whites and it is a fact patent to all that at the present time the Blacks are in a great measure dependent upon the whites for Employment and subsistence. Thus I have given you a statement as to the general destitution. I feel bound to state however, that the number Eight hundred (800) is too large, in my judgment, exclusive of the Blacks, by at least two or three hundred. Perhaps more.

But you conclude the 1st Interrogatory by ordering me to "give estimate number absolutely dependent — Whites and Blacks". If by this is meant utter inability to work and procure the means of subsistence and with no visible means of support, I will estimate the number at One hundred fifty Whites and One hundred Blacks. Or, if it includes those who can but eke out a miserable existence by what little labor or work they may do together with occasional Charities, I estimate the number at Three Hundred (300) Whites and Two hundred (200) Blacks. Had I the discretionary

NARA 731

power of
^ puing of supplies I would but partialy help those who were able to do some work.

In answer to the several questions of your second Interrogatory I say

1st No supplies are being distributed in the County. I think none have been rec'd in several months save ten Bbls. of Meal sent to some member of the Baptist Church by some association.

The effort that was being made by the Citizens, as before alluded to seems to need system, energy and a practical head.

2ndly As to the question of the best method of distributing supplies received from charitable societies, I am unable to answer. The supplies might be shipped to Jonesborough (or after a short time to Bear Creek as there is being a Depot established there) on Macon & W. R. Road, to the Inf.r Court of the County. The court however, as it at present stands is not a very active or business body. It consists of five members but none of them reside at the County site. They might get some one to attend to it. They did, last year distribute supplies to the indigent Whites.

In response to Circular Letter from Office Asst. Commissioner of Ga dated, Atlanta Ga, Feb. 24. 1868; I have the honor to state that I know of but one case with the charge of Murder, and none of Assault with intent to Kill, in the Counties of Henry and Newton. Elbert Smith, Col.d, Killed Jno.s Chubb, col.d in Summer of 1867. in Henry Co. At Oct.r Tm. 1867 of Henry Sup.r Court, in consultation with other Attorneys charged with the defence of Elbert, we thought it advisable to Confess to Voluntary Manslaughter. Did so, and the Judge sentenced Elbert to seven years imprisonment in the Penitentiary of Ga.

I have succesfully defended one or two freedmen charged with assaulting Whitemen with intent to Kill.

Respectfully

Dear Miss:

On my return from Macon this morning I found your letter of Jan. 15th. I am very glad indeed you have made a Catawba. We have been expecting a teacher there for a long time and was sorry that all did not open. I am sorry Rhetta is away as he would aid you. I think, however, you will have no trouble. As I understand it you are to teach at the Academy for your board. All people in Catawba are to pay your board. I believe there is an Educational Association or Board there, who have on hand quite a sum of money for that purpose. I understand that the school is to be known there as the Academy. The trustees or Board have the money to pay your board out of the fund. I may be mistaken about this, if it is not to be paid in that way I suppose you will have to charge as small tuition as each pupil. Arrange to see the Board & get it. You can consult with that Board about this matter and do the best you can in the matter.

Please find inclosed a blank for teachers aided by the Peabody Fund. I told Mr. Crocker that if he would send a teacher to Catawba, I would give him credit in the A. M. A. In order to do that you will need to fill up this blank and return it in two places pro-

The Bureau sometimes gives aid to School Houses when there seems to be certainty - that the money will be well expended. When any considerable amount is given. the land must be secured by some instrument - by deeds for school purposes.

I doubt not can be paid when the number of pupils warrants it. I hardly think Col. Lewis will feel that he can pay rent unless your School is much fuller than it now is. There is no particular form for having rent. a simple request is all that is required.

Your bill of the 22d is read. I am glad to know that you have so flourishing a school at your place, and hope you will be able to continue it. Promptly I see no way now that we can aid you. The Peabody fund is fully bonded, and will not need to receive any more from it till next September, and it is not certain that we shall have, I seems to me that the people of Troy ought to be able to support one teacher themselves. I am sure they can if they will try as hard as they do in some places. I hope they will make an earnest effort. We have sent blanks to your teacher, I hope she will report.

Very truly. E.A. Ware, Asst. Supt. Schools.

Circular No. 7

The following Proclamation of His Excellency Gov. Jenkins, is published for the information and guidance of Officers and Agents of this Bureau in this State.

Proclamation by His Excellency, Charles J. Jenkins,
Governor of Georgia.

Executive Department.
Milledgeville April 14th 1866

Public attention has doubtless been given to Circular No. 4, issued on the 6th. inst. by Brigadier General Davis Tillson, A. A. Commissioner Bureau Refugees, Freedmen and Abd Lands — and approved by Brevet Major General J. M. Brannan, Commanding Department of Georgia — and to General Orders No. 17 of Brt. Maj. Gen. Brannan of the same date.

By these orders a large jurisdiction in civil and criminal cases, wherein Freedmen alone, or Freedmen and white persons be parties, heretofore denied to State Courts, is granted to them. As will appear in the sequel, this does not amount to position and final withdrawal of military authority. It is unquestionably a highly satisfactory advance in the process of restoration to our former political status, which may be followed by a further advance in the same direction, or by a retrograde movement, as circumstances may indicate. It has been induced mainly by the legislation of the General Assembly relative to the status of the Freedman. It will not be lost and may be speedily pushed further, if the Judiciary, in Courts

NARA1022

of Inquiry and in Courts of Record—the Bench and the Jury Box—give effect to the letter and the spirit of the laws by them enacted. In the full assurance that my fellow-citizens, official and unofficial, who may be called upon to participate in the administration of Justice, will hold the scales in perfect equilibrium, as between individuals and classes, I congratulate the people of Georgia upon this earnest of coming restoration to entire self-government. In our condition, neither conscious rectitude of intention, nor noisy and unbecoming professions of it, will avail aught. Practical demonstrations, which inevitably itself cannot gainsay, and nothing less, will work out our redemption.

It is of great importance to us that none mistake the effect of the Presidents recent Peace Proclamation, and of the orders above referred to. Our condition is certainly anomalous, and mischievous errors might result from theoretical speculation upon those documents. I therefore state, as the result of official intercourse, and of careful examination of previous orders and circulars, which are only modified—not withdrawn.—

1st. That the Agents, in the several counties of the Freedmen's Bureau, still have jurisdiction in all cases "between freedmen and others when the sum involved does not exceed fifty Dollars, exclusive of interest. They may also take cognizance of and try all offences committed by said people or against them, provided the punishment does not exceed a fine of fifty dollars or thirty days imprisonment at hard labor." They are also still charged with the duty of examining and approving or disapproving labor contracts, and of assisting and protecting, by legal means, freedmen requiring such aid. Trials by strictly military commissions, are dispensed with, except when the accused is a soldier, or the offence is charged one against the Federal Government.

2ndly. I have high authority for saying that "the President's Proclamation does not suspend martial law or operate in any way upon the Freedmen's Bureau in the exercise of its legitimate jurisdiction; though it is not deemed expedient to resort to military tribunals in any case where Justice can be attained through the medium of civil authority." My impression is, that in case of military arrest by orders from Headquarters Department of Georgia, interference of State Judges, by Habeas corpus, will not be permitted. Such orders, I believe, will be rarely if ever issued, and I trust conflict will be avoided.

Whilst, thus, by thus communicating reliable information, I seek to guard the whole people against erroneous impressions regarding the extent to which the Federal military authority is relaxed, I respectfully call upon the civil authorities to assume and to exercise, in perfect fairness and justice, the jurisdiction clearly restored to them. Calmly and patiently pursuing our new ascending course, let our acts illustrate our title to fuller confidence and higher rights. Faithful observance of the Federal Constitution and impartial administration of the law, will best vindicate intentions honestly entertained and distinctly expressed, but carelessly accredited.

Washington, May 21st 1866

Circular
No 4

In order to answer numerous inquiries from officers, agents and others, and if possible prevent misunderstandings with regard to the change of organization in this Bureau, this Circular is issued.

I. The commissioner recommended, some time since, that the functions of Military Commander of a State and assistant Commissioner be exercised by the same officer. Wherever practicable, this is being effected as in Virginia and Mississippi. It is done in condemnation of the Assistant Commissioners who have labored hard and successfully, but to secure more prompt and effective administration than can otherwise be done.

II. The Commissioner calls the attention of all officers, officially to the attention reports in Circulation as to acts of Severity and Cruelty toward the freedmen on their own part, as to carelessness in rendering their monthly accounts and other offences. Every officer or Agent already accused, should have the opportunity of a thorough vindication before a Court Martial. But the occasions for such trials are to be deprecated and and they must be forstalled by a thorough System of inspection and a prompt removal of every unfaithful officer.

NARA1024

III. Special attention is again called to the difficult duty of caring for the indigent. Where intense anxiety prevails to get rid of the Bureau, surely State and County officers will make some arrangement to relieve the general government of this heavy expense. If the County officers or overseers of the poor, will adopt the proper measures the industrial and government farms which are now so much complained of, can be dispensed with.

In order to meet an emergency, when the whole system of labor was deranged, the Commissioner urged the forming of joint companies, the encouragement of the immigration of those accustomed to free labor, so as to afford promptly, as many examples as possible, of the successful employment of negroes under a free System. Apparently in keeping with thes regulations a few officers have invested their own means, jointly with citizens, in the planting interest. I know of no law, or regulation of the Army or of this Bureau, against this, yet it will almost inevitably lead to corruption, as it has already to bitter accusation. Hereafter such investments, within their own jurisdiction, by officers on duty in this Bureau, are Strictly prohibited.

I am engaged in revising the Regulations for the Medical Department of the Bureau. Please write this Office direct if existing regulations afford you every facility for taking care of sick and destitute Refugees and Freedmen, if not what changes your experience would suggest.

In this connection your attention is called to Paragraph III., circular No 4. 1866, from this Bureau (inclosed). Please state if the civil authorities have adopted the proper measures for the care of sick and destitute Freedmen, giving, at the same time, your opinion, and the facts upon which such opinion is founded, whether the Medical Department of the Bureau should or should not be continued in your District.

Dear Sir

I have the honor to Submit to You Some observations upon a Subject Which Causes me great deal of trouble by being unable to attend the Cases properly

Amongst My female patients (Besides Venereal Cases) there are many Uterine affections from profuse Leucorrœa to the full procedentia recent or Chronic.

Since I am in Charge of this hospital I received only One Vaginal Syringe (unfit for Use) and not a pessary

All I have used up to this time Come from my private Supply Which is now exhausted. Demand more Dearly please instruct Me how to better the Case

Be So kind as to tell Me also in regard of My Small Pox hospital furniture (if it Can be So Called) it is nearly 2 months Since I had no new Cases. The land upon Which it is built has been Sold 2 weeks ago to parties Wished to Cultivate it and request that the buildings Would be removed by the City Council Who had the privilege of it for the past year. When I formed that hospital I took the Most Worthless things I Could find in My Regular hospital

I have turned over to the Qr Mr Dept for transportation to you, by direction of the Asst Commr the Clothing named on the accompanying Invoice. This Clothing is classed as "Stores pertaining to Bureau R.F. & A.L." and Returns have to be made up for it to the Commissioner forwarded through this office monthly. The cloth which you make up into articles for wear is expended on the Form No 42; and under this head of "Application" you will state what was made from the goods. This form requires the approval of the Asst Commissioner. On another form (not numbered) you enter all the articles of clothing manufactured.

The different articles of apparel are issued on the Form No 38 - you will observe the note on it, the form is a sub-voucher to the Form No 42 on which you enter the number of articles issued on each roll, as expended. These different vouchers - which are all made in duplicate - are entered on the Returns. You retain one complete set with a copy of the Returns for your own protection.

These instructions with those contained in the "Manual" will, I think, enable you to account for the property correctly.

You will please sign the accompanying requisitions, and the receipts to them, and return them to me with as little delay as possible.

Major Watson has just shown me yours letter in reference to the Supply of Material for Clothing the Sick and destitute Freed People which was sent to you.

You are hereby authorised to employ a Seamstress to make up the Clothing, at a rate of pay not to exceed ~~one~~ fifteen (15) dollars per month: other assistance can be obtained among the attendants and inmates of the hospital if any such can be of service they must be compelled to assist. I request you will call upon the Ladies Teachers (of free Schools) and request ~~them~~ one or more of them to superside the Work, otherwise there will certainly be misapplication and a want of economy in the cutting and preparing of the Material for Manufacture into Garments.

The Seamstress will be entitled to Rations & Quarters like attendants. Major Watson requests me to ask you to inquire and inform him if the Q.M. of Atlanta receipted to the R.F.& A.L. Colonel: It having come to the knowledge of the Commissioner that in some instances, Commissioned officers on duty in the Bureau, have presented bills for Medical attendence upon themselves, by a private Physician at places where an Acting Assistant Surgeon is employed on the Service of the Bureau.

He directs that in future, that Medical attendence must be procured from the Medical Officers of the Bureau on duty at the place or vicinity where the Officer is sick, or the Officer must pay the bill himself.

In no case will any payment be made by the Bureau, for Medical attendence at places where a Medical officer is on duty.

(Circular Letter)

Already some cases of Epidemic Cholera ~~are~~ recently reported to have occurred at some of the landings of the Mississippi; and it is not unlikly that this disease may make its appearance at other places. It is therefore necessary to adopt such measures as will best tend to prevent its appearance, or control its extension among Communities

The first effort, of course, will be to counteract the tendency to its Spontaneous origin, and to avert or prevent its introduction from without, through direct communications with persons, or objects believed to be infected.

It will therefore be necessary to observe the utmost care in procuring and preserving the best hygienic condition of every Settlement, as relates not only to the localities, but also to personal cleanliness. Strict attention will be given to the proper Sanitary policing of houses and yards, and streets, using freely disinfectants, or absorbents. (such as lime, Charcoal, Coal-tar, plaster of Paris, Sulphate of iron — whatever may be most readily obtained.)

Attention should also be given to the use of suitable kinds or quality of food, and its proper preperation by Cooking; also the water

NARA1865

used for drinking or cooking should be carefully examined, and when pure water cannot be procured in sufficient quantities and the Spring or river water contains organic impurities, it should be purified by distillation or the noxious matter precipitated by permanganate of Potash. From half a grain to one grain of the crystalliged Permanganate (or its equivalent in Solution) added to one gallon of water should produce a decided pinkish hue, which disappears within twenty four hours, (if the salt has not been used in excess); the water should then be drawn off and is ready for use"

"Turbid water, such as that of the Rio Grande, lower Mississippi, and its tributaries, should be filtered, or allowed to settle before using. The deposit of impurities can be hastened by the addition of powdered alum in small quantities, well diffused by stirring."

Whenever a case of Cholera occurs it will be the duty of the Medical Officer to see that the patient is isolated, as far as practicable, and that the strictest attention be given to the cleanliness of the person, clothing, bedding, and of all the utensils used, and that disinfectants for the latter be freely employed.

All cases will be recorded in the form of a Special report according to the following form:—

Name	Nativity	Age	Date of Attack	Date of Recovery	Date of Death	Remarks.

Surgeon U.S.

The treatment of successful cases will be given in detail, and also the results of post-mortem examinations.

Every fact relating to the appearance of disease, either by importation or by local cause so far as ascertained, will be fully set forth in these reports, and be sent to this office through the Surgeon-in-chief of the District at the end of each week.

ofthess from fifteen to twenty five per cent or even more depending upon the Section of the country, the season of the year, epidemic influences etc.

When a requisition is for a permanent hospital and out-door sick combined the number of beds in the hospital will be stated, and the estimated number of sick persons outside who would be entitled to medical attendence and medicines, and the equivalent number of beds, will also be stated.

Requisitions for "additional articles" will be made on a separate sheet of paper, and the reasons therfor, will be distinctly and fully set forth in each case, to be transmitted to this Office through the Surgeon-in-chief of the District, who will append such remarks respecting the necessity or the non-necessity of the issue as he may judge proper for the information of the Chief Medical Officer. No issues for these articles to be made until approved in this Office, Issues for Standard Supplies will be made as heretofore,

It must be born in mind that it is not intended to furnish every article of Materia Medica that may be considered desirable or even essential for private practice, but the Standard Table as recently amended or slightly enlarged will be rigidly adhered to, as it is believed to contain all the essentials of practice,— The Government does not profess to supply all the instruments or remedies that the refinements of private practice would demand, but such articles as are readily obtained and can be successfully applied for immediate and general relief, and as will abate suffering in a helpless and dependent class, and prevent loss of life or permanent injury to health.

I have the honor to submit to you some observations that I consider important to the benefit and comfort of the patients in this Hospital.

I have not bed steads enough for all my patients and many of those in use are much in want of repair. Several patients are lying on the floor which is very open. Two and three children are sleeping on one bed stead.

In the male ward much repair is indispensable. Windows have to be place sliding shutters. In two wards repair have to be made to the roofs and walls, large amount of window glasses have to be replaced. Of portable bedsteads would be very acceptable as the nights are becoming very cold. Please instruct me if I ought to make a requisition for the whole or part of this, or how to do in the case?

Office of Chief Medical Officer,

Bureau of Refugees, Freedmen, and Abandoned Lands,

Washington D.C. June 6th 1868.

It is desirable that all Acting Assistant Surgeons in the employment of the Bureau, and especially those who are in charge of Freedmen's Hospitals, avail of every opportunity of contributing to the Anatomical and Pathological Collections of the Army Medical Museum.

The Museum comprises six Sections 1, Surgical; 2, Medical; 3, Microscopical; 4 Anatomical; Anatomical (Comparative); 6 Ethnological. Specimens illustrating subjects pertaining to either of these branches will be appreciated.

Medical Officers in the employ of the Bureau will make autopsies, or cause them to be made whenever practicable, in all fatal cases which may come under their observation, and they will forward to the Army Medical Museum all pathological specimens of interest thus obtained, and also any remarkable anatomical anomalies.

It is not intended to impose on medical Officers the labor of dissecting and preparing specimens. This will be done at the Museum under the supervision of the Curator. Many pathological objects to be mounted in the dry way, may be packed in boxes, protected by cotton ~~and~~ or tow; others designed for

wet preparations, should be divested of superfluous soft parts identified by a label inscribed in lead pencil on a bit of wood, enveloped in muslin, and immersed in dilutes alcohol or whiskey, and placed in a can or keg, well secured. All should be forwarded by express to the Surgeon Generals Office, the words "Army Medical Museum" being written in the lower left hand corner of the address. The expenses of expressage will be defrayed by the Surgeon General's Office. When the package is forwarded, a letter of advice, enclosing a history of the case should be simultaneously transmitted. Where no express line is available, packages should be turned over to the Acting Quartermaster.

In addition to forwarding to the Museum such specimens of morbid anatomy as may be obtained from the patients under their charge, the medical gentlemen on duty in the Bureau are invited to contribute specimens of normal and comparative anatomy and ethnology. The roughly cleaned skeletons of any of the rares animals, mammals, birds, fish, or reptiles, will be valued. Human crania are particularly desired. Indian weapons and implements, such as stones axes, arrow-heads, etc, will also be highly appreciated.

Besides contributing to the Museum, medical officers are requested to communicate to the Surgeon General, through this Office, report of cases that may come under their notice of remarkable recoveries from operations or injuries incurred in the late war. Reports of cases of consolidated fractures of the femur, of injuries of the large joints treated with or without excision, of penetrating wounds of the great cavities, and of ligations of the larger arteries, are especially sought for.

Medical Officers may rest assured that their contributions, either to the museum or to

the Surgical data of the Surgeon Generals Office, will be duly acknowledged and accredited to them in the publications of the Medical Bureau of the War Department.

Bureau Refugees Freedmen, and Abandoned Lands
Office of Chief Medical Officer
Washington June 18th 1868.

The attention of Medical Officers of the Bureau, especially those serving in regions heretofore visited by epidemic disease, is called to the necessity of using every available means for the prevention or spread of such diseases, as well as of reporting, according to prescribed forms see circular issued from this Office, dated May 21st 1867, all cases occurring in their practice.

These reports need not be confined to the beneficiaries of the Bureau, but may embrace all cases coming under their professional care, and should state every circumstance connected with the history of the appearance of the first case coming to their knowledge, and every fact tending to elucidate the origin and progress of the epidemic. When the standard means are not at hand to control or modify the epidemic, the Medical Officer will at once report the facts to the Surgeon-in-Chief of the District, and in case

of great emergency he will call upon the highest Officer or Agent of the Bureau present for such assistance as he can render.

Vaccination in the beginning is effectual and a prompt, and efficient system of revaccination, will go far towards abating the evil. Cholera patients should be at once isolated, if practicable, and a free use of disinfectants practiced in all cases.
